The screenshot shows the UEFITool 0.17.9 interface. The main window is titled 'UEFITool 0.17.9' and contains a 'Structure' panel on the left and an 'Information' panel on the right. The 'Structure' panel displays a list of files and sections with columns for Name, Action, Type, Subtype, and Text. The 'Information' panel shows details for the selected file, including Type (01), Size (00000916), Compression type (Tiano), and Decompressed size (000026d8). A 'Messages' panel at the bottom displays the error: 'parseInputFile: descriptor parsing failed, descriptor region has intersection with BIOS region'.
